LONGHORNED BEETLE QUARANTINE LANGUAGE

Adopted April 17, 2002

New Section

**WAC 16-470-800 Establishing quarantine for longhorned beetles of the genus *Anoplophora*.** Beetles of the genus *Anoplophora* include the citrus longhorned beetle (*Anoplophora chinensis*) and the Asian longhorned beetle (*Anoplophora glabripennis*). There are no species of *Anoplophora* native to North America. These beetles are serious pests in their native ranges in Asia and are highly invasive species which have entered and may become established in Washington State. The establishment of any species of *Anoplophora* beetle in Washington would cause reduction in native vegetation and ornamental plants and great economic loss to the forestry, nursery and agricultural industries of the state. The director of agriculture, pursuant to authorities in RCW 17.24 and RCW 15.13, has determined that the regulation and exclusion of all life stages of beetles of the genus *Anoplophora* and of any potentially infested host material is necessary to protect the environmental quality, forests and agricultural crops of the state of Washington.

New Section

**WAC 16-470-810 Prohibiting possession, transportation or distribution of living beetles of the genus *Anoplophora*.** Possession of any living life stage of any beetle of the genus *Anoplophora*, including but not limited to citrus longhorned beetle (*Anoplophora chinensis*) and Asian longhorned beetle (*Anoplophora glabripennis*), is prohibited. Transportation or distribution of any living life stage of any beetle of the genus *Anoplophora* into or between points within the state of Washington is prohibited. Any *Anoplophora* beetle eggs, larvae, pupae, or adults should be killed at the site of discovery. Trained employees of the department are available to assist the public in identifying *Anoplophora* beetle life stages and can be reached at toll-free telephone number (800) 443-6684 or email [pestprogram@agr.wa.gov](mailto:pestprogram@agr.wa.gov).

**WAC 16-470-820 What is the area under quarantine for citrus longhorned beetle?** The boundaries of the area under order are within the City of Tukwila in King County. The area under order consists of all properties lying primarily within a circle with a radius of a half mile, centered at the property immediately southwest of the intersection of Macadam Rd. S. and S. 144<sup>th</sup> St. Any property on the border of the circle, which lies at least 50% outside the circle, is excluded from the area under quarantine for citrus longhorned beetle. A [map of the area under quarantine](#) can be obtained through a request to the department at toll-free number (800) 443-6684 or email [pestprogram@agr.wa.gov](mailto:pestprogram@agr.wa.gov).
